

Your Most Trustworthy Eyewitness

Dashcam | DrivePro™ 220

Day or night, Transcend's DrivePro 220 dashcam is a reliable eyewitness on the road. In addition to the excellent hardware design, the DrivePro 220 offers useful features for optimum driving safety, including GPS receiver, Lane Departure Warning System (LDWS), Forward Collision Warning System (FCWS), Speed Alarm, and Parking Mode.

Forward Collision Warning System (FCWS)
helps maintain a safe distance

Parking Mode to safeguard your vehicle when you're not there

- Lane Departure Warning System (LDWS) helps prevent accidents
- Speed alarm reminds you of the speed limit
- Built-in battery to ensure uninterrupted recording
- Built-in G-Sensor to detect impact and protect current recording
- F1.8 aperture and 130° viewing angle for clear and smooth 1080P recordings
- Wi-Fi connectivity and exclusive DrivePro New App
- DrivePro PC Tool to easily select and play videos (Windows only)

DrivePro™ 220

Ordering Information

TS16GDP220A Adhesive Mount
TS16GDP220M Suction Mount

Includes a 16GB High Endurance memory card

Dimensions	70.2mm x 63.1mm x 34.5mm (2.76" x 2.48" x 1.36")
Weight	90 g (3.17 oz)
